Get up on the machine table and look down at where the Pins screw into the Bearing sleeve. You will see a couple of small set screws that screw into the Cam Ring Pins and hold them in place. Look off around 30 degrees and you will see another set of holes for those set screws. Bridgeport drilled another set of holes in the Pulley sleeve.

Bridgeport Mill

A Bridgeport mill is a standard manual knee-type vertical milling machine. The reason that many people refer to a manual mill simply as a "Bridgeport" is because it's one of the most famous brand names that's found in most machine shops. Essentially, Bridgeport invented the modern manual milling machine.
