Inside the Neolithic Mind: Consciousness, Cosmos and the ...

This fascinating book continues the story begun in the bestselling and critically acclaimed book The Mind in the Cave. Drawing on the latest research and recent discoveries, the authors skilfully link material on human consciousness, imagery and belief systems to propose provocative new theories about the causes of an ancient revolution in cosmology, the origins of social complexity and even the drive behind the domestication of plants and animals.

Inside the Neolithic Mind: Consciousness, Cosmos and the ...

Inside the Neolithic Mind: Consciousness, Cosmos and the Realm of the Gods is a cognitive archaeological study of Neolithic religious beliefs in Europe co-written by the archaeologists David Lewis-Williams and David Pearce, both of the University of the Witwatersrand in Johannesburg, South Africa. It was first published by Thames and Hudson in 2005. Following on from Lewis-Williams' earlier work, The Mind in the Cave, the book discusses the role of human cognition in the development of religion

Inside the Neolithic Mind - Wikipedia

Drawing on the latest research, this brilliantly argued, elegantly written book examines belief, myth and society in the Neolithic period, arguably the most significant turning point in human history, when the society we know was born. Linking consciousness, imagery and belief systems the authors create a bridge to the thought-lives of the past.

[(Inside the Neolithic Mind: Consciousness, Cosmos and ...

This book is an attempt to explain some aspects of Neolithic religious ideas and practice which are suspected to have arisen from experience with altered states of mind. The authors' approach based on neurophysiology and comparisons with more recent shamanistic societies is interesting, but their explanations often seem too far-stretched and pushed.
