Managerial Accounting for Managers, 4th edition by
Noreen/Brewer/Garrison is based on the market-leading managerial
accounting solution, Managerial Accounting, by Garrison, Noreen and
Brewer. The Noreen solution presents integrated and proven solutions
designed to help attain course goals of student readiness,
comprehension of content, and application of key concepts in the
managerial accounting course, while addressing the needs of
instructors who do not wish to teach the financial accounting-
oriented content that is included in the Garrison solution (no
debits/credits). Of the three programs in the Garrison franchise (the
Brewer solution, the Garrison solution, and the Noreen solution), the
Noreen solution is the most pure management accounting content. The
other two programs contain greater coverage of financial accounting
topics. Managerial Accounting for Managers 4e is geared towards
professors who love Garrison's market-leading managerial accounting
content but prefer to approach their course by eliminating the debits
and credits coverage. The Noreen solution includes the managerial
accounting topics such as Relevant Costs for Decision Making, Capital
Budgeting Decisions, and Segment Reporting and Decentralization,
however, the job-order costing chapter has been extensively rewritten
to remove all journal entries. Furthermore, the chapters dealing with
process costing, the statement of cash flows, and financial statement
analysis have been dropped to enable professors to focus their
attention on the bedrocks of managerial accounting--planning,
control, and decision making. McGraw-Hill's Connect Accounting offers
a complete digital solution combines all the great features of
Connect Accounting including McGraw-Hill's SmartBook, powered by
LearnSmart, which is designed to help students learn faster and more
efficiently, and retain more knowledge for greater success. In
addition, Interactive Presentations deliver learning objectives in an
interactive environment, giving students access to course-critical
content anytime, anywhere. Guided Examples provide students with
narrated and animated, step-by-step walkthroughs of algorithmic

versions of assigned exercises. Auto-Graded Excel Simulations, assignable within Connect Accounting, allow students to practice their Excel skills--such as basic formulas and formatting--within the context of accounting. These questions feature animated, narrated Help and Show Me tutorials (when enabled), as well as automatic feedback and grading for both students and professors.
