Mathematical Practices Series This three-day series focuses on effective teaching and learning required to meet the increased rigor of state standards and current assessments. We align what educators already know with what they need to learn about developing the habits of mind their students need for success with mathematics.

Standards for Mathematical Practice. The Standards for Mathematical Practice describe varieties of expertise that mathematics educators at all levels should seek to develop in their students. These practices rest on important “processes and proficiencies” with longstanding importance in mathematics education.
