Anyone who really wants to make sense of Ireland and the Irish must read Roy Foster's magnificent and accessible *Modern Ireland*' Anthony Clare 'A magnificent book. It supersedes all other accounts of modern Irish history' Conor Cruise O'Brien, *Sunday Times* 'Dazzling ... a masterly survey not so much of the events of Irish history over the past four centuries as of the way in which those events acted upon the peoples living in Ireland to produce in our own time an "Irish Nation" ... a gigantic and distinguished undertaking' Robert Kee, *Observer* 'A work of gigantic importance. It is everything that a history book should be. It is beautifully and clearly written; it seeps wisdom through its every pore; it is full of the most elegant and scholarly insights; it is magnificently authoritative and confident ... *Modern Ireland* is quite simply the single most important book on Irish history written in this generation ... A masterpiece' Kevin Myers, *Irish Times* R. F. Foster is Carroll Professor of Irish History at the University of Oxford and a Fellow of Hertford College, Oxford. His books include *Modern Ireland: 1600–1972*, *Luck and the Irish* and *W. B. Yeats: A Life*.

Roy Foster is one of the leaders of the iconoclastic generation of Irish historians. In this opinionated, entertaining book he examines how the Irish have written, understood, used, and misused their history over the past century. Foster argues that, over the centuries, Irish experience itself has been turned into story. He examines how and why the key moments of Ireland's past--the 1798 Rising, the Famine, the Celtic Revival, Easter 1916, the Troubles--have been worked into narratives, drawing on Ireland's powerful oral culture, on elements of myth, folklore, ghost stories and romance. The result of this constant reinterpretation is a shifting "Story of Ireland," complete with plot, drama, suspense, and revelation. Varied, surprising, and funny, the interlinked essays in *The Irish Story* examine the stories that people tell each other in Ireland and why. Foster provides an unsparing view of the way Irish history is manipulated for political ends and that Irish poverty and oppression is sentimentalized and packaged. He offers incisive readings of writers from Standish O'Grady to Trollope and Bowen; dissects the Irish government's commemoration of the 1798 uprising; and bitingly critiques the memoirs of Gerry Adams and Frank McCourt. Fittingly, as the acclaimed biographer of Yeats, Foster explores the poet's complex understanding of the Irish story--"the mystery play of devils and angels which we call our national history"--and warns of the dangers of turning Ireland into a historical theme park. *The Irish Story* will be hailed by some, attacked by others, but for all who care about Irish history and literature, it will be essential reading.

From 1970, things were changing in Ireland – the Celtic Tiger had finally woken, and the rules for everything from gender roles and religion to international relations were being entirely rewritten. *Luck and the Irish* examines how the country has weathered these last thirty years of change, and what these changes may mean in the long run. R. F. Foster also looks at how characters as diverse as Gerry Adams, Mary Robinson, Charles Haughey and Bob Geldof have contributed to Ireland's altered psyche, and uncovers some of the scandals, corruption and marketing masterminds that have transformed Ireland – and its luck.

A masterful history of Ireland's Easter Rising told through the lives of ordinary people who forged a revolutionary generation. On Easter Monday, 1916, Irish rebels poured into Dublin's streets to proclaim an independent republic. Ireland's long struggle for self-government had suddenly become a radical and bloody fight for independence from Great Britain. Irish nationalists mounted a week-long insurrection, occupying public buildings and creating mayhem before the British army regained control. The Easter Rising provided the spark for the Irish revolution, a turning point in the violent history of Irish independence. In this highly original history, acclaimed scholar R. F. Foster explores the human dimension of this pivotal event. He focuses on the ordinary men and women, Yeats's "vivid faces," who rose "from counter or desk among grey / Eighteenth-century houses" and took to the streets. A generation made, not born, they rejected the inherited ways of the Church, their bourgeois families, and British rule. They found inspiration in the ideals of socialism and feminism, in new approaches to love, art, and belief. Drawing on fresh sources, including personal letters and diaries, Foster summons his characters to life. We meet Rosamond Jacob, who escaped provincial Waterford for bustling Dublin. On a jaunt through the city she might visit a modern art gallery, buy cigarettes, or read a radical feminist newspaper. She could practice the Irish language, attend a lecture on Freud, or flirt with a man who would later be executed for his radical activity. These became the roots of a rich life of activism in Irish and women's causes. *Vivid Faces* shows how Rosamond and her peers were galvanized to action by a vertiginous sense of transformation: as one confided to his diary, "I am changing and things around me change." Politics had fused with the intimacies of love and belief, making the Rising an event not only of the streets but also of the hearts and minds of a generation.

This is a book about the Irish Question, or more specifically about Irish Questions. The term has become something of a catch-all, a convenient way to encompass numerous issues and developments which pertain to the political, social, and economic history of modern Ireland. The Irish Question has of course changed: one of the main aims of this book is to explore the complicated and shifting nature of the Irish Question and to assess what it has meant to various political minds and agendas. No other issue brought down as many nineteenth-century governments and no comparable twentieth-century dilemma has matched its ability to frustrate the attempts of British cabinets to find a solution; this inability to find a lasting answer to the Irish Question is especially striking when seen in the context of the massive shifts in British foreign policy brought about by two world wars, decolonization, and the cold war. Senia Paseta charts the changing nature of the Irish Question over the last 200 years, within an international political and social historical context. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

A vivid and original account of one of Ireland's greatest poets by an acclaimed Irish historian and literary biographer The most important Irish poet of the postwar era, Seamus Heaney rose to prominence as his native Northern Ireland descended into sectarian violence. A national figure at a time when nationality was deeply contested, Heaney also won international acclaim, culminating in the Nobel Prize for Literature in 1995. In *On Seamus Heaney*, leading Irish historian and literary critic R. F. Foster gives an incisive and eloquent account of the poet and his work against the background of a changing Ireland. Drawing on unpublished drafts and correspondence, Foster provides illuminating and personal interpretations of Heaney's work. Though a deeply charismatic figure, Heaney refused to don the mantle of public spokesperson, and Foster identifies a deliberate evasiveness and creative ambiguity in his poetry. In this, and in Heaney's evocation of a disappearing rural Ireland haunted by political violence, Foster finds parallels with the other towering figure of Irish poetry, W. B. Yeats. Foster also discusses Heaney's cosmopolitanism, his support for dissident poets abroad, and his increasing focus in his later work on death and spiritual transcendence. Above all, Foster examines how Heaney created an extraordinary connection with an exceptionally wide readership, giving him an authority and power unique among contemporary writers. Combining a vivid account of Heaney's life and a compelling reading of his entire oeuvre, *On Seamus Heaney* extends our understanding of the man as it enriches our appreciation of his poetry.

Richard English's brilliant new book, now available in paperback, is a compelling narrative history of Irish nationalism, in which events are not merely recounted but analysed. Full of rich detail, drawn from years of original research and also from the extensive specialist literature on the subject, it offers explanations of why Irish nationalists have believed and acted as they have, why their ideas and strategies have changed over time, and what effect Irish nationalism has had in shaping modern Ireland. It takes us from the Ulster Plantation to Home Rule, from the Famine of 1847 to the Hunger Strikes of the 1970s, from Parnell to Pearse, from Wolfe Tone to Gerry Adams, from the bitter struggle of the Civil War to the uneasy peace of the early twenty-first century. Is it imaginable that Ireland might - as some have suggested - be about to enter a post-nationalist period? Or will Irish nationalism remain a defining force on the island in future years? 'a courageous and successful attempt to synthesise the entire story between two covers for the neophyte and for the exhausted specialist alike' Tom Garvin, *Irish Times*

W. B. Yeats is usually seen as a great innovator who put his stamp so decisively on modern Irish literature that most of his successors worked in his shadow. R. F. Foster's eloquent and authoritative book weaves together literature and history to present an alternative perspective. By returning to the rich seed-bed of nineteenth-century Irish writing, *Words Alone* charts some of the influences, including romantic 'national tales' in post-Union Ireland, the poetry and polemic of the Young Ireland movement, the occult and supernatural novels of Sheridan LeFanu, William Carleton's 'peasant fictions', and fairy-lore and folktale collectors that created the unique and powerful Yeatsian voice of the decade from 1885 to 1895. As well as placing these literary movements in a vivid contemporary context of politics, polemic and social tension, Foster discusses recent critical and interpretive approaches to these phenomena. He shows that the use Yeats made of his predecessors during his apprenticeship, and the part that a self-conscious use of Irish literary tradition played in the construction of his path-breaking early work as he attempted to 'hammer his thoughts into a unity' made him an inheritor as much as an inventor.

This book brings together some of today's most exciting scholars of Irish history to chart the pivotal events in the history of modern Ireland while providing fresh perspectives on topics ranging from colonialism and nationalism to political violence, famine, emigration, and feminism. The *Princeton History of Modern Ireland* takes readers from the Tudor conquest in the sixteenth century to the contemporary boom and bust of the Celtic Tiger, exploring key political developments as well as major social and cultural movements. Contributors describe how the experiences of empire and diaspora have determined Ireland's position in the wider world and analyze them alongside domestic changes ranging from the Irish language to the economy. They trace the literary and intellectual history of Ireland from Jonathan Swift to Seamus Heaney and look at important shifts in ideology and belief, delving into subjects such as religion, gender, and Fenianism. Presenting the latest cutting-edge scholarship by a new generation of historians of Ireland, *The Princeton History of Modern Ireland* features narrative chapters on Irish history followed by thematic chapters on key topics. The book highlights the global
