Evidence

Numerous factors have been proposed in the literature as explaining the recent commodity price movements. In this paper we focus on one of the most widely discussed factors, the impact of speculative bubbles. We investigate whether commodity prices during the spike of 2007-2008 might have deviated from their intrinsic values based on market fundamentals.

Speculative bubbles in agricultural commodity markets.

For the small agricultural commodity market, the bubbles are mainly related to speculative activities,

Get Free Speculative Bubbles In Agricultural Commodities Evidence

while for the primary agricultural commodity market, bubbles can be explained by the rising oil price, increasing biofuel demand, international agricultural market, and domestic policies.

Bubbles in Agricultural Commodity Markets of China

The Second Bank of the US called in loans for specie beginning in August 1818 popped the speculative land bubble. Prices of agricultural commodities declined by almost -50% during 1819-1821 post bubble. A credit contraction caused by a financial crisis in England drained specie out of the U.S.
