by a hostile journalist who seems to know a secret connected to her dead husband, a famous novelist. As each new mystery unfolds, Erik begins to inhabit his emotionally hidden father's history and to glimpse how his impoverished childhood, the Depression, and the war shaped his relationship with his children, while Inga must confront the reality of her husband's double life. A novel about fathers and children, listening and deafness, recognition and blindness; the pain of speaking and the pain of keeping silent, the ambiguities of memory, loneliness, illness, and recovery. Siri Hustvedt's exquisitely moving prose reveals one family's hidden sorrows through an extraordinary mosaic of secrets and stories that reflect the fragmented nature of identity itself.

The dazzling new novel by the author of the international bestseller, *WHAT I LOVED*, about the secrets and ghosts that haunt families from one generation to the next

The author looks into the lives and hearts of Vietnamese-Americans who have found the inner strength to struggle and create new lives in a new cultural environment

A memoir by an American Quaker who had been in Vietnam during the war and returned in the 1980s recalls the stories of women in the struggle against the French and the Americans, from a young intellectual to an eighty-one-year-old peasant who stitched the national flag in 1940

From the author of the prophetic national bestseller *Blowback*, a startling look at militarism, American style, and its consequences abroad and at home In the years after the Soviet Union imploded, the United States was described first as the globe's "lone superpower," then as a "reluctant sheriff," next as the "indispensable nation," and now, in the wake of 9/11, as a "New Rome." Here, Chalmers Johnson thoroughly explores the new militarism that is transforming America and compelling its people to pick up the burden of empire. Reminding us of the classic warnings against militarism—from George Washington's farewell address to Dwight Eisenhower's denunciation of the military-industrial complex—Johnson uncovers its roots deep in our past. Turning to the present, he maps America's expanding empire of military bases and the vast web of services that supports them. He offers a vivid look

at the new caste of professional warriors who have infiltrated multiple branches of government, who classify as "secret" everything they do, and for whom the manipulation of the military budget is of vital interest. Among Johnson's provocative conclusions is that American militarism is putting an end to the age of globalization and bankrupting the United States, even as it creates the conditions for a new century of virulent blowback. The Sorrows of Empire suggests that the former American republic has already crossed its Rubicon—with the Pentagon leading the way.

A devastating indictment of the Bush administration's war policies from the bestselling author and respected moral authority With the words "this Crusade, this war on terror," George W. Bush defined the purpose of his presidency. And just as promptly, James Carroll-

Boston Globe columnist, son of a general, former antiwar chaplain and activist, and recognized voice of ethical authority-began a week-by-week argument with the administration over its actions. In powerful, passionate bulletins, Carroll dissected the President's exploitation of the nation's fears, invocations of a Christian mission, and efforts to overturn America's traditional relations-with other nations and its own citizens. Crusade, the collection of Carroll's searing columns, offers a comprehensive and tough-minded critique of the war on terror. From Carroll's first rejection of "war" as the proper response to Osama bin Laden, to his prescient verdict of failure in Iraq, to his never-before-published analysis of the faith-based roots of current U.S. policies, this volume displays his rare insight and scope. Combining clear moral consciousness, an acute sense of history, and a real-world grasp of the unforgiving demands

of politics, Crusade is a compelling call for the rescue of America's noblest traditions. A cry from the heart, a record of protest, and a permanently relevant analysis, Carroll's work confronts the Bush era and measures it against what America was meant to be.
